

## decotric Rapid Paint Stripper decotric Abbeizer rasant

Free from CHC and NMP, for removing old paints, lacquers and dispersion paints.

**Instructions for use:**

*decotric Rapid Paint Stripper* is suitable for removing oil paints, synthetic-resin varnishes, dispersion paints as well as for cleaning stony-hard brushes (no plastic bristles). *decotric Rapid Paint Stripper* works already after approx. 1 hour and does not run down on vertical surfaces. Wooden, metal and masonry bases are not attacked, plastics and bases not resistant to solvents can be attacked.

Free from dichloromethane and N-methyl pyrrolidone.

**Technical specifications:**

Components:	butyl acetate, dimethyl sulphoxide and thickener
Density:	0.92 g/cm <sup>3</sup>
Flash point:	27° Celsius
Consumption:	300-600 ml/m <sup>2</sup>

**Application:**

Apply *decotric Rapid Paint Stripper* using a brush and leave to soak. In the case of coatings that are difficult to strip, remove the partially dissolved layer using a spatula and repeat the process step. Afterwards, rinse the surface with water or *decotric Paint Brush Cleaner*. Protect surfaces not to be pickled from splatters by covering them with a film. Paint remnants must be disposed of via a hazardous waste collection point in accordance with the regulations.
