

decotric non-woven wallpaper paste – easy-control

Area of application:

Suitable for bonding smooth and embossed non-woven wallpaper and non-woven woodchip wallpaper.

Properties

- With coloured indicator for application control
- instant – ready to use in approx. 10–15 minutes
- Dries transparent
- High initial adhesion and bonding strength
- Easy to correct
- Free from preservatives

Technical data:

Raw material base: Starch ether,
additives Bulk density: approx. 330 kg/m³

Substrate preparation:

The substrate must be sound, dry, level and free of release agents (dust, grease, etc.). Remove old wallpaper and poorly adhering paint. Fill cracks, holes and uneven areas. Prime highly absorbent, sandy and chalky substrates with decotric Deep Primer LF. Even out any colour differences in the substrate with decotric Wallpaper Primer White.

Application:

Quickly and vigorously stir the contents of the packet into clean, cold water (see table) and continue stirring for a short time. Stir vigorously again after 5 minutes. The mixed paste is pink in colour and becomes transparent after drying.

Use	Preparation	Water quantity	Package is sufficient for
Application to the substrate	1 : 15	3.75 l	20 - 25 m 4 - 5 Euro rolls
Application on the wallpaper	1 : 20	5 l	25 - 30 m 5 - 6 Euro rolls

Euro roll: approx. 10.05 x 0.53 m

Processing:

Wall adhesive technique (application to the substrate): As non-woven wallpapers do not require a soaking time, they can be quickly and easily applied using the wall adhesive technique. To do this, apply the paste evenly to the substrate using a short-pile roller in a width of 1–2 wallpaper strips. Place the wallpaper strip into the fresh adhesive bed and press down evenly and bubble-free.

Applying to wallpaper: Apply the paste to the wallpaper with a brush and stick it to the wall, ensuring that the edges are aligned. Press down evenly and remove any air bubbles.

Notes:

The wallpaper manufacturer's instructions must be followed carefully. Remove any paste residue from the front of the wallpaper immediately with a damp cloth. Do not use at surface or room temperatures below +5 °C. Clean tools with water immediately after use. Free from preservatives, so the mixed paste should be used quickly.

Please refer to the safety data sheet for safety-related information. Current safety data sheets are available on our website www.decotric.de or atsds@decotric.de.

Storage

Store in a cool, dry place and keep tightly closed. Keep out of reach of children.

Disposal

Dried material residues can be disposed of with household waste or as construction site waste. Dispose of uncured residues in accordance with EWC waste code no. 08 04 14.
