

decotric Wallpaper Protector

decotric Tapeten- und Anstrich-Schutz

Dirt and water repellent protective coating.

Instructions for use:	<i>decotric Wallpaper Protector</i> is a colourless transparent, brushable, gloss coating for wallpapers, dispersion-based paints, plaster and similar substrates. For interior use. <i>decotric Wallpaper Protector</i> is not suitable for use on plastic, wood or metal.	
Technical information:	Components:	Acrylate dispersion
	Density:	1.0 g/cm ³
	pH value:	7-8
	Coverage per m ² :	100-150 ml/m ² per coating
Surface Preparation::	The surface must be dry, stable and free of dust, grease etc.	
Application:	<p><i>decotric Wallpaper Protector</i> is ready for use and can be applied using a brush or a suitable spray application system. The glossiness of the coating depends on the surface structure of the substrate. For rough substrates, two coats are required to achieve an even, gloss coating. For silk lustre surfaces, <i>decotric Wallpaper Protector</i> can be diluted 1:1 with water.</p> <p><i>decotric Wallpaper Protector</i> can be used as a rendering base, diluted up to 1:4 with water depending on the absorbency of the substrate.</p> <p>Do not use if the temperature of the room or substrate is below 5°C. Clean tools with water immediately after use.</p>	
Important information:	Please see the EU Safety Data Sheet for all safety-related data (EU-CLP).	
Storage:	Store in a cool place, protect from frost! Ensure that the container is properly closed during storage!	
Available sizes:	250 ml PE bottle	art. no. 006006001
	1 l PE bottle	art. no. 006007001
